

Abdulkareem Alhallak

Full-Stack Developer | Flutter Developer

Damascus, Syria | +963 994 248 009 | alhallakabdulkareem@gmail.com | github.com/abdulkareem424

PROFESSIONAL SUMMARY

Product-focused software engineering student and full-stack developer experienced in building mobile-first applications, REST APIs, database-backed systems, and responsive web interfaces. Hands-on with Flutter, Laravel, Node.js, React, PostgreSQL/MySQL, Docker, and Linux deployments. Comfortable owning features end-to-end from data modeling and API design to UI integration, testing, and deployment.

TECHNICAL SKILLS

Mobile	Flutter, Dart, BLoC, responsive UI, REST API integration
Backend	PHP, Laravel 12, Node.js, Express.js, REST APIs, JWT authentication
Frontend	React, JavaScript, HTML5, CSS3, responsive web design
Data	PostgreSQL, MySQL, SQLite, relational modeling, data integrity
DevOps & Tools	Git, Docker, Linux, Nginx, DNS, Postman, Android Studio

SELECTED PROJECTS

Tabeley - Restaurant and Cafe Booking Platform

Flutter, Laravel 12, PostgreSQL, Docker, Nginx | 2026

- Designed a mobile-first reservation workflow for customers, venues, and administrators with approval, cancellation, completion, and no-show states.
- Built API-first backend logic for table assignment, timed offers, pricing snapshots, blacklist rules, authentication, and role-based operations.
- Prepared containerized deployment, PostgreSQL persistence, DNS configuration, and production-oriented failure handling.

Physiotherapy Center Management System

React, Node.js, Express, SQLite, JWT | 2026

- Built a LAN-based clinic system for administrators, therapists, secretaries, and patients, including scheduling and check-in/check-out workflows.
- Implemented authentication, role controls, therapist assignment constraints, reporting, and external-drive backup planning.

ALC Architecture Institute Platform

Web Application, PostgreSQL, Telegram Bot, Docker | 2026

- Delivered a bilingual registration platform with student records, unique registration numbers, QR-based attendance, and admin/session-manager workflows.
- Integrated Telegram confirmation flows and designed the data model for reliable registration and bot-state tracking.

EXPERIENCE

Freelance Full-Stack and Mobile Developer

2023 - Present

- Develop web and mobile solutions using Flutter, React, Laravel, Node.js, and SQL databases.
- Translate business requirements into database schemas, REST APIs, responsive interfaces, and deployable systems.

Flutter Developer - Al Hadara

2023

- Created reusable mobile UI components and application flows using Flutter and Dart.

EDUCATION & TRAINING

Bachelor's Degree in Software Engineering	2022 - 2027 (Expected)
Arab International University (AIU)	Damascus, Syria
Meta Front-End Development Program	2024
Al Hadara Flutter Development	2023

LANGUAGES

Arabic: Native | English: Working proficiency
